Huge Gaps Loom In All Precinct Rosters

Only 59 candidates for Town Meeting member have declared up to Tuesday noon, according to Town Clerk James J. Golden.

There are a total of 87 vacancies, leaving 28 slots to be filled. Lack of candidates occurs in all areas except Precincts 9 and 14. Although the shortage is an annual occurrence, it is pointed out, this year the lethargy seems even greater. The Town Clerk has sent out two sets of letters, one dated Dec. 19, the other Jan. 8, urging precinct chairmen to clarify the status of their rosters. Six of the fourteen precinct chairmen have not bothered to answer, according to Golden. These are Precincts 1, 2, 3, 4, 13 and 14.

The Town Clerk said he has also written each Town Meeting member whose term expires in March and enclosed a form by which they can fill out and automatically become a candidate.

Of the 81 whose terms expire only 36 have returned the forms. All nomination papers is Jan. 26. The others have not indicated at 5 p.m.

Park Avenue Church To Hear Speaker On Missionary Needs In Africa

Dr. John A. Reuling, secretary for Africa and Mexico of the American Board of Foreign Missions, will speak Sunday morning, Jan. 18, in the Park Avenue Congregational church.

Because he is a layman, Dr. Reuling's message appeals to the man in the pew, it is said. He is a member of the National Committee of the Congregational Christian Laymen's Fellowship. For 12 years, until 1941, he was an educator among the Bantus of South Africa, serving on the faculty of Adams College, called the "Hampton of South Africa."

He has made two extensive executive tours of Africa since 1946 and one to Mexico in the spring of 1951.

During his visit to Africa Dr. Reuling did earnest research into the conditions and problems of Portuguese West Africa, Southern Rhodesia and the Union of South Africa.

Bernard Baruch Writes Letter To Local Group

Says Federal Government Must Straighten Out Finances First

In a reply to a local committee, Bernard M. Baruch, famed governmental adviser, said that before local taxation problems could be tackled, "your first problem is to get the federal government straightened out—otherwise the local ones never will be."

The letter was written to Robert H. Zwicker, chairman of the Committee to Study the Pittsburgh Tax Plan.

Zwicker's letter to Mr. Baruch and the latter's reply follow.

Mr. Bernard Baruch
597 Madison Ave.,
New York City, N. Y.

Dear Mr. Baruch:
As an expert on taxation you might give our committee some advice on the essential soundness of taxing land values rather than improvements.

We have been assigned the task of studying and considering this tax measure as it might effect Arlington. Other Massachusetts towns and cities including Boston are awaiting the report that will be submitted to the next annual Town Meeting of Arlington.

This report will be based, among other things, on the considered opinions of experts like yourself. Unfortunately there appears to be too little factual information on this subject.

Any word from you will be greatly appreciated by our committee.

Sincerely yours,
Robert H. Zwicker
Dec. 29, 1952.

Mr. Robert H. Zwicker,
Chairman
Committee for Study of
Pittsburgh Tax Plan
Dear Mr. Zwicker:

This is to acknowledge the receipt of your letter of December 29th.

There is one point I would wish to drive home to you—as I tried to do at the Mayors' Conference and to the general public for twenty-five years—

Your taxation problems are affected very strongly by the inflationary processes which the federal government has set in motion and has never really attempted to control. How can any tax problem be resolved when by some federal action over night your budget becomes unbalanced and therefore your taxes become inadequate.

Your first problem is to get the federal government straightened out—otherwise the local ones never will be.

This appeasement of our people by printing more money under one guise or another will have to be stopped and now—otherwise we will continue on the road which ended all previous civilizations.

Sincerely yours,
Bernard M. Baruch

Strange Guests Attend Hardy P.T.A. Meeting

Spooky the owl, Blacky Beauty the snake, and Herky the porcupine were the unusual guests accompanying Gilbert Merrill at the Hardy School P.T.A. meeting Tuesday evening.

Merrill, who is the assistant director of education at the Boston Museum of Science, spoke on "Woodland Fears—Real and Imaginary," to a packed auditorium. Because of the nature of the program, older pupils from the school were allowed to be in the audience.

Mrs. Herbert Wallace led the community singing after the business meeting which was conducted by Mrs. Beatrice Rogers, president.

Gott Chairman Of Tax Committee

The appointment of Rep. Holis Gott as chairman of the important state committee on Taxation was announced this week by the Speaker of the House of Representatives, Charles G. Bonbons.

Rep. Gott will also continue as chairman of the special taxation commission, which he headed last year.

His other committee appointments in the House include the Civil Service Committee and the committee on Interstate Cooperation.

LOOK IN THE ATTIC

WANTED—A copy of the first issue of the Arlington Advocate, dated Dec. 16, 1871—marked Vol. 1, No. 1.

The publishers of the Advocate are looking for the first issue of the paper, either to buy, or if that is not possible, to borrow and photostat. The Advocate's own early files were destroyed many years ago. Robbins Library is in possession of a complete file with the exception of the first issue, which was ripped from the bound book by some unthinking and selfish person.

Please help us find this "ancestor."

THE BLOODMOBILE will make its next visit here on Tuesday, Feb. 3, at St. John's Parish Hall from 1 to 7 p.m. Phone Mrs. Russell Hamlet, AR 5-4129, for appointment.

Driver Charged With Leaving Scene Of Accident

George Reynolds of 24 Summer st. told police last Saturday that while operating a Public Works Dept. snowplow on Mystic st., near College ave., the plow blade was struck and damaged by a taxicab, registration unknown.

Reynolds said that the driver did not stop and that he thought the cabbie had a woman passenger.

Sgt. Ryan and Patrolman White investigated and found a hub cap and headlight rim at the scene.

Officer White later reported that the car allegedly involved was found. According to police, it was a Plymouth sedan owned by the Arlington Taxi Co., 625 Massachusetts ave., and allegedly operated by Edward F. Lane, 13 Winter st.

Officer White has filed a complete report with Chief Bullock and, it is understood, Lane will be prosecuted.

Local Man Named Acting Dean Of Divinity School

The appointment of George Huntington Williams of 82 Bartlett ave. as Acting Dean of the Harvard Divinity School for one year, beginning next July, was announced this week by the Harvard Corporation. At the same time he was made Associate Professor of Church History.

Dr. and Mrs. Williams came to Arlington in 1947 from Berkeley, Calif., when he joined the staff of the Divinity School. Three of their four children, Portia, Jeremy and Johnathan, attend Parmenter School while baby Roger keeps his mother busy at home.

Mrs. Williams says that right now her interests are necessarily centered at home but she has previously been active in the Arlington Council of Church Women, the League of Women Voters, P.T.A. and the Kensington Park Study Club. The family attend the First Parish Unitarian church here.

Dr. Williams is the author of several books. His works include "The Norman Anonymous of 1100 A. D.," "Rethinking the Unitarian Relationship with Protestantism" and a contribution to "Protestant Thought in the Twentieth Century." He has also published two studies on "Church and State in the Fourth Century."

Born on April 7, 1914 in Huntsburg, Ohio, he was graduated from St. Lawrence University in 1936, and received the Bachelor of Divinity degree from Meadville Theological School in 1939 and the Doctor of Theology degree from Union Theological Seminary in 1946.

He studied abroad at the University of Munich in 1934-35 and with the Protestant Faculty of Strasbourg in 1939-40.

Before joining the faculty of the Harvard Divinity School in 1946, Dr. Williams taught at the Starr King School for the Ministry in Berkeley, Calif., and the Pacific School of Religion.

The dinner was held at the 1775 House in Lexington.

Storm Will Cost \$20,000, Estimated

Four Machines Break

Last week-end's fall of heavy snow and rain will cost about \$20,000 in removal, it was estimated yesterday by Thomas R. Rawson, chairman of the Board of Public Works.

A Boston paper had reported Sunday the cost would be \$28,000. "This report was strictly erroneous," Rawson said. "Information was not available then."

"Ice, sleet and snow combined to make it a difficult job to handle and the Board would like to give credit to the Superintendent and his crews who worked long hours over the entire week-end," he said.

Adding to the difficulties, it was revealed that four heavy pieces of equipment broke down, including two Walters snow fighters and two large tractors.

Club Opens Drive To Drive Out Filth Literature

The Fourth Degree Club of the Knights of Columbus, at a regular meeting Monday night passed a resolution designed to tighten control over the distribution of objectionable comic books and magazines now on sale in many Arlington stores.

The discussion of the subject was opened up by George A. Harris, who has been conducting a personal survey of the town.

Harris stated, "That if parents would only examine the types of reading material that are offered to children at low prices, they would rise up in their wrath and put an end to it. Many parents seem to think that such rotten material is only reprints of newspaper strips or other pictorial representations of a humorous type."

"It seems to me that parents should take it upon themselves, as their duty to their children, to make even a cursory examination of newscasts in their neighborhood stores."

"Such an examination will leave them agast," he said. "They should then present their objections to the storekeeper and, if necessary, withdraw their trade until action on removal of the books is completed. The storekeeper, in turn, will object to the distributor, who, as revenue is reduced, will force publishers to revert to better literature."

After discussion of the project, by a unanimous vote, the club passed a resolution on the motion of Joseph P. Greeley. The motion will be widely circulated among national, state, local governmental officials as well as to the clergy, it is planned.

The 4th Degree Club asks that any and all civic and fraternal organizations in town adopt similar resolutions plus awakening their memberships to take personal action in the stores.

Organizations and residents desiring further information on the project should contact President John F. Scott of 81 Allen st., it is suggested.

MARCH OF DIMES announced this week that a special Mile O' Dimes will be held in Arlington Center on Friday night, Jan. 23, under the sponsorship of the Arlington Boys' Club.

Richard Van Iderstine of 79 Robbins rd. became Arlington Chapter's third master counselor at the installation held on Saturday evening at the Town Hall. Richard Cooke and Richard Martin were advanced to senior and junior counselors, respectively.

A good sized audience applauded the excellent work of the installing suite, which was headed by Elbert Woodis, retiring master counselor. The installing marshal was Zantline Greenwood. Sir Knight-Chevalier, and past master counselor of Massachusetts.

Following the installation, the majority degree was put on for the first time in Arlington, with Louis Martone and Elbert Woodis as recipients.

It was announced that Richard Rockwell, first master counselor, was inducted into the military last Thursday at 6 a.m., the line officers all being there to wish him Godspeed.

The meeting closed with an address by the speaker of the evening, the Rev. Charles E. Pedersen of the Calvary Methodist church, and an invitation to all De Molay mothers to meet at the Universalist church on Jan. 23 at 8 p.m. to organize a mothers' club.

Red and Gray Jottings

by Janet Kirschbaum

Arlington High lost its basketball game played against Cambridge Latin, Tuesday afternoon, Jan. 6, by a score of 53-50, after the Red and Gray had the lead for the first three periods. This was the team's second loss against three wins for the current season. The game which was to be played against Waltham last Friday night was cancelled. Their next game will be played at Rindge on Jan. 16 at 3 p.m.

The hockey team added another win to its perfect record of five wins, no losses for this season, when the locals beat Newton, 3-2, with a goal by Don Dolan in the last thirty-one seconds of the game Saturday night. Arlington, therefore, still tops the G.R.I. League. Their next game will be played against Rindge at the Boston Garden, Friday night, Jan. 16, on second ice.

The Book Reviewers held a meeting at Robbins Library on Jan. 7.

Congratulations to the Student Council! They made more than \$28 on the unusual basketball games between the boys and girls and the other between the boys and men teachers.

The trackmen lost their first meet last Saturday afternoon to North Quincy, 41-36. The Red and Gray placed first in the shot put, 300-yard run, 600-yard run, 1000-yard run, 50-yard dash and the relay, second in 45-yard hurdles and third in the 600-yard run, the mile and 45-yard hurdles. The B.A.A. Meet will be held next Saturday with 536 entries from forty eight Eastern Massachusetts high schools competing. Arlington has several entries.

He told about his early life in Syria and some of the hardships that he and his people had endured. He has written a book called "Syrian Yankee" which is not yet in the book stores.

A weight-lifting and wrestling class for boys began on Jan. 13. The first meeting was for organization.

The "Chronicle" in which ballots for the WHDH "Boston Ballroom Record Poll" will appear will be sold soon. This poll promises to be interesting.

Elections for representatives from high schools to Student Government Day to be held in March will take place soon. Those running are William Marino, Stanley Clark, Joan Speedie, Lois Twitchell and Dave Bicknell.

A short senior assembly was held before school Wednesday morning. Several important problems were discussed including the color of the Year Book covers and the classes' opinion on the wearing of caps and gowns at graduation in June.

The Commission will make a report to this session of the Legislature of their findings and recommendations, it is understood.

25 MILLION TEA BAGS

Arlington Advocate
Gentlemen:
In the January 8th issue of your paper you refer to me [in the headline] as the "tea bag in-ventor".

I appreciate your compliment but can't honestly accept that honor. I did receive patents on machinery for making tea bags, which you will admit is quite different from originating that handy little gadget now being produced at the rate of over 25 million per day in the United States alone.

I am refuting this honest error on your part because of the embarrassment it might cause me. I have no desire to emulate the Russians in either trait or complexion.

It may interest you to know that in an old diary dated 1840 mention was made of preparing food supplies for an Atlantic crossing.

"Tea was tied up in cloth to make individual servings in order to conserve it and eliminate the bulky tea-pot. The tea was brewed directly in the cups. This of course was in the old days of sailing ships when passengers brought along and prepared their own food, quite a far cry from our luxury liners of today."

It is said that tea bags were being made commercially by a friend in New York City as early as 1910. Women could make about 500 per day.

Later production was stepped up to 1000 per day with the help of an overstretch sewing machine.

I was selling tea in 1919 and sold some of these tea bags for \$5.00 per thousand, wholesale.

Today although the price of tea has doubled since then, tea bags are selling as low as \$7.50 per thousand, wholesale.

This, of course, is due to the high-speed machines which can make over 10 thousand tea bags per hour.

Please accept my thanks for the publicity you gave my entry into the selectman contest.

Sincerely,
William S. Patterson

That Man About Town

By MAT

So far, two civic organizations are going to have a Candidates' Night. The Committee of Citizens For Town Manager is co-sponsoring one with this paper on Feb. 17. Although all candidates will be invited, the accent will be on "new" administration starts.

The other is the League of Women Voters who will hold a similar meeting but, as we understand it, with candidates for Selectman only. It will be a public affair in Junior Library hall.

These are two worthy projects. More such organizations should do likewise. It is only by public appearance that voters can really find out which candidate has the "goods." We would like to see all of the civic records of Selectmen-candidates exposed to the ear of the voter. We would also like to see a more extensive "question and answer" period as the finale to such meetings. It is by inquiry that we become informed.

In the past, the voters usually got such platitudes as "alert," "aggressive," "tried," "trustworthy" and the like. They mean nothing! Let's find out what the various candidates intend to do as a progressive effort.

We can easily see political maneuverings in the lineup of Selectmen candidates. We do not necessarily mean any "deals" are being made. We mean merely that as the picture unfolds, some candidates were "placed" in slots where they can win by the splitting of the vote of those within that slot. Withdrawals will also be in sight as more of the twisting goes on. This is legal, of course, but not under certain circumstances, morally right. Weak or record-lacking candidates, enter only when they think strong and able candidates oppose each other. Their hope is to slip in without working for the job or town. Voters should try to analyze this phase of politics and pick the very best men in each slot. If voters want a well run town (as it has been), this analysis is of extreme importance.

The Chamber of Commerce has voted to insert in the 1953 Town Warrant an Article to make the best possible use of business area on Jan. 20 in the charter room of land. This is one of the best projects of that organization in many years. If a study of the situation — The Friday Social Club — can come up with a solution to by, 33 Florence ave. The meet-out-outdated parking facilities, being postponed from Jan. 9 it will be of great advantage to because of the storm.

FIRE DRIVES SIX PERSONS FROM HOUSE

A fire Monday at 2 a.m. at 20 Locke street forced six persons to flee to the street, injured one fireman, and caused damage estimated at \$3,000.

Miss Dorothy McDermott, 25, discovered the blaze when she awoke and noticed smoke coming from the door of the closet in her second floor bedroom. She roused the other occupants of the house which included her mother, Mrs. Katherine McDermott, 57, owner; her sister, Gloria, 17, and Mrs. Mary Bouchard, 31; the latter's husband, Arthur, 37, and their son, Arthur Jr., 7.

Hoseman John Doherty attached to Engine 2 suffered lacerations to his hand but was able to remain on duty until the fire was extinguished at 4:37 a.m.

According to Fire Chief Richard J. Tierney, the fire engines had difficulty reaching the house because cars were parked on both sides of the snow-cluttered street. Cause of the blaze is still not definitely known. It is said the fire was confined to the upper floor of the one and a half story frame house but smoke and water damage was done to the first floor.

Postponed Church Meeting To Be Held Friday Night

Last Friday's storm caused postponement of a special meeting of the Pleasant Street Congregational Church at which action was to have been taken on recommendations of the Church Planning Committee. As a result, this Friday evening will be a busy one for members of the Church and Parish.

The regularly scheduled annual meeting will be pushed ahead to 5:15 o'clock in the Sanctuary. Supper will be served in the Vestry at 6:45, with Mrs. John A. Heidt and Mrs. James W. Wilson as co-chairmen, after which the postponed special meeting will convene in the Sanctuary at 7:45 o'clock. If not, tell the shopkeeper to object. He can tell the distributor who can stop it. Drop us a note on what you do. We'll withhold names and follow through.

An instructor of medicine at Tufts Medical College, he is chief of the medical service at Symmes Hospital. Other active staff assignments include the Mt. Auburn Hospital and the Boston City Hospital, with courtesy appointments to the staff of other community hospitals.

His wife is the former Flora Youngken, daughter of Dr. and Mrs. Heber W. Youngken of 12 Woodland st.

Dr. McCarty formerly had offices at 5 Bay State rd., Boston.

MUSICAL ARTS SOCIETY

Last Friday's blizzard forced a postponement of the January meeting of the Musical Arts Society from its usual Friday time until Sunday, Jan. 11 at the home of Mrs. Merwin Hathaway in Lexington.

Mrs. Robert Spence of Arlington, president, presided.

Mrs. Carl Samsel, program chairman, introduced the first performers, Phyllis Spence, violin, and Marie Hendrick, piano, who presented the Mozart Sonata for violin and piano in A major. Ellalou Hoyt Dimmock, soprano, was a guest artist whose presentation of modern French songs was illuminated by her introductory program notes about the chief French composers of vocal music since 1870.

Hazel Mitchell of Arlington Heights, pianist, played a Beethoven Piano sonata, Opus 90. Her second number was in strong contrast to the Sonata, being one of Charles Griffes' Roman Sketches, "The White Peacock," based on a poem by William Sharp.

ANNUAL HUE AND CRY

Again this year, the number of candidates for Town Meeting member in relation to vacancies is appallingly weak. To date there exists a total of eighty-seven vacancies with only fifty-nine candidates with the filing deadline only ten days away.

Although this is an annual occurrence and the condition usually is corrected by the filing deadline, there is no need for it. During the last-minute rush, errors of judgment are bound to creep in. Too frequently the precinct rosters are not filled with sufficient candidates and the voter is left with no choice. As a result a candidate who never would have won and who does not honestly represent his constituents backs in to office by being automatically elected.

Sometimes, we wonder whether this undemocratic way is not fostered by "ins". After all, the "ins" can win forever if there are no contests. The persons responsible for the status of each Precinct's roster are the individual chairmen. Men and women who were elected to do their job by their fellow precinct members. The Town Clerk has written these chairmen two letters (one on December 19th, the other January 8th) urging them to report any known vacancies. Members whose terms will expire in March have also been written individually by the Town Clerk, asking them to declare their intentions.

According to the Clerk, he has not heard from six of the fourteen chairmen and only thirty-two of the eighty-one members whose terms expire this year.

Annually, this paper has raised the hue and cry with good results. We do not intend to shirk our duty but we think it's high time the chairmen and the members up for re-election performed theirs!

JUST SUPPOSE --- IT'S POSSIBLE

Just suppose it were your child—your girl or boy—happy, protected, cherished—with dreams of growing up to become a movie star or pilot? What could happen to her—or to him, laughing and playing in the sun under your watchful eyes? The chances are, nothing.

But to thousands of such carefree, loved, protected youngsters something *did* happen last year. Dreaded, sneak-attacking polio struck at them, childish laughter was stifled. There were days of pain—of excruciating anxiety—for some, a prospect of lifelong handicap. Suppose one of them had been your girl or boy. It's possible!

January is March of Dimes month and during this time all of us have a chance to act as if our own children were among the unfortunate. We can strike back at this cruel disease by contributing generously to the March of Dimes to help them.

You have already received by mail one of the 13,000 Dimes cards. Return it now—filled. The job of getting kids back on their feet—in a literal sense—cannot continue unless you and I and all the rest of us put up more dollars and dimes than ever before. There have been 132,000 cases in four years, triple what used to be a "normal" number.

Suppose there were no March of Dimes, suppose it were your kid and no help at hand...

Fortunately, there is a March of Dimes. You created it and you can give it the extra backing it needs this year because there are so many kids—and adults too—dependent on it.

BLOOD—A NATIONAL RESOURCE

Blood is as much a weapon of defense as guns, tanks, planes. It is as vital to national strength as aluminum or steel. Unlike weapons, it cannot be manufactured. It cannot be mined or fabricated. It must come as a free donation from the veins of men and women of good will.

Since its founding this Nation has been involved in a major war every 25 years and a minor military conflict every two and a half years. This history demonstrates the importance of preparedness.

Recognizing that human blood is a critical national resource essential for the country's health, strength and security, the President of the United States has directed the establishment of a National Blood Program within the Office of Defense Mobilization.

The National Blood Program is charged with the responsibility of mobilizing the Nation's blood resources so that blood will be readily available to meet the total needs of the country—both military and civilian.

Three major national organizations are co-operating in broadening and strengthening blood collection facilities and recruiting donors. These three organizations are the American National Red Cross, the Department of Defense, and the Federal Civil Defense Administration.

As in the past the American National Red Cross serves as the official procurement agency in cooperation with several community blood banks and blood collection facilities on military posts.

Camp Fire Girls Make "Cookies For Rookies"

Camp Fire Girls expressed the spirit of Christmas by making cookies which were sent to Arlington boys who are in the armed forces in this country.

It's just a small way of telling the boys that friends and neighbors haven't forgotten them.

Since homemaking is one of the Camp Fire's seven crafts, the girls are quite adept at baking. Consequently, no bicarbonate will accompany "Cookies for Rookies" in spite of what some envious buddies of the lucky recipients may have to say.

The Blue Bird groups of Mrs. Mary Ring, Mrs. Frances LeForce, Mrs. Bernice Littlefield, the Camp Fire groups of Mrs. Myrtle Wolons and Mrs. Barbara McSorley participated in the project. "PARTING IS SUCH SWEET SORROW"

DALE CARNEGIE

A PROBLEM WAS solved in a unique way for John L. Davis, 1980 Washington Street, San Francisco, California. He was working for a Bank & Trust Company in San Francisco, and he definitely was in a rut. He was not getting ahead as fast as he had a right to feel he should. He worried about what step to take, yet he was afraid to quit and look for something better.

Finally he decided to write a letter addressed to himself reviewing the facts and challenging himself to make the break in the next ninety days. He wrote this letter and signed it.

Next he made up a list of his friends and decided to call on them for help, giving his qualifications and the reason why he felt he should get out of the slow moving banking business.

The first man he called on was a vice president of another San Francisco bank who said he would be glad to offer John a position in his bank, but they both felt that would not fundamentally solve the problem.

In a few days this vice president telephoned John to come to see him, and told of a new Investment Trust just formed in San Francisco and said that they were looking for a security analyst.

John was admirably qualified because of his work in the Harvard Graduate School of Business Administration. He immediately went to see the President of the new company and was accepted for the position. Within three years he was a vice president and a director of the company, with a salary three times what he had been making at the bank.

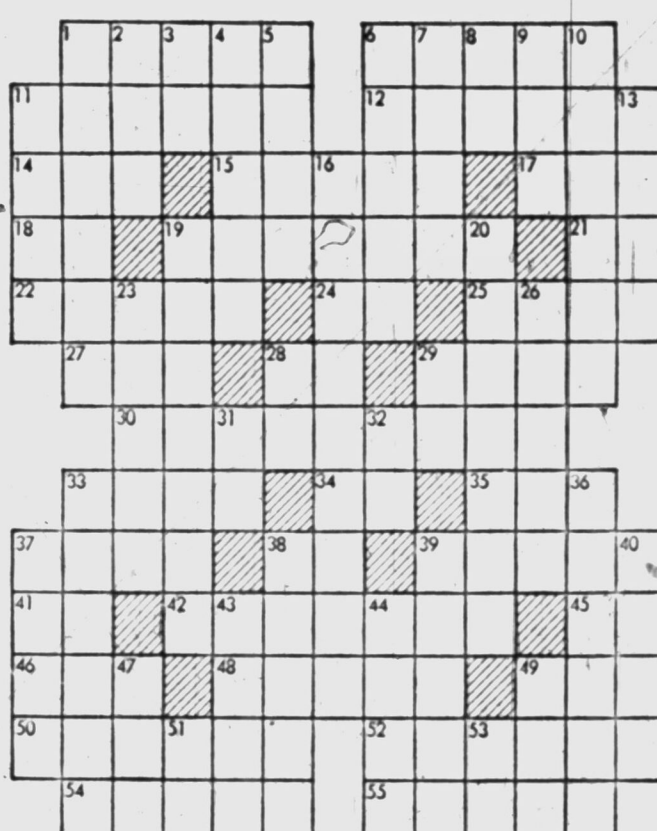

He believes he really conquered his fear and stopped his worry by writing the letter to himself just setting the facts down in black and white and making clear his course of action. The call on his friend was motivated by the need for action to make the change in ninety days. The final result was what he had desired and that result was irrefragable once he had written the letter.

Doctors Say Fear and Anger May Cause More Winter Colds

FEAR, ANGER or anxiety may cause more winter colds than that old standby, "I sat in a draught," according to a new study by a medical research team.

The researchers found that "emotional sweating" . . . a phenomenon touched off by worry or sudden fear . . . first attacks the feet, causing cold and dampness, which leaves you prey to the next cold germ that comes along.

Cold, wet feet, whether caused by "emotional sweating" or merely wearing rubbers and overshoes for extended periods, are one of the most common causes of colds, medical men say. They recommend that you remove overshoes as soon as you step indoors, or when you

take a journey in a heated automobile, bus or train.

Over-protection of the feet, a common fault in winter, can bring on considerable trouble, foot specialists warn. By all means keep your feet dry, but don't suffocate them with extra-heavy shoes or shoes made of impermeable materials.

Your feet will weather the winter months better if you give them a nightly soak in warm water, and a short exercising session that will loosen up the numerous tiny muscles and ligaments and whip up blood circulation. Before you go to bed, walk on tiptoe two or three times around the room, then rub the soles vigorously with a dry towel.

THIS WEEK IN Washington

IT IS ONLY a matter of days until Dwight Eisenhower becomes President Eisenhower and assumes one of the greatest responsibilities of the world, possibly the most important single position in the world. Washington is always in a dizzy whirl when a new administration assumes power, but even more so this time because it will be the first complete change in 20 years.

And as the time approaches for the "big change," Washington observers are trying to find the answers to a number of questions that time alone will answer. One of them concerns possible discord within his party over foreign policy.

Eisenhower has named his cabinet and top advisers. Most of them are conservative in that they believe in a balanced budget and, what many call, "orthodox" finance. Many point out that the President-elect himself believes in these ideals.

On the other hand, Eisenhower is committed to a strong, aggressive foreign policy that will cost billions. It can not, under any circumstances, cost much less than that of previous Democratic administrations during the first year or so.

This brings up the question in the minds of many Washington observers. Will there be a conflict between the two points of view within his administration? Can the two be reconciled without damage to the whole?

Most observers believe Eisenhower, because of his tremendous popularity and forceful nature, will pull the two ends together and weld them into an unbreakable chain. But it certainly will be a difficult job. Time alone holds the answer.

Another of the questions being asked in Washington is how complete is the Eisenhower-Taft accord?

No one in Washington is thinking that the two men, both forceful and intelligent, will agree upon every subject. But observers do believe that they will discuss their points of disagreement and compromise for the good of the Republican administration and the country.

As time goes along there will be numerous rumors concerning discord. It is unlikely, however, they will ever reach the stage of the famous Barkley-Roosevelt split of the New Deal era.

ACROSS the DESK

WITH THE beginning of another year, two editorials in the weekly press claim attention. The editor of the Lincoln Times, Lincoln, N. C., had this to say on the subject of "Taxes And Food":

"According to the president of the Grocery Manufacturers of America, the American consumer (you and I) now pays more in taxes than he pays for his food! In 1949, the nation spent \$17 billion for food and paid \$12.5 billions in taxes. Last year, by contrast, the food bill was \$52.2 billions and the tax bill was \$37 billion."

"Here is more proof of the fact that the tax bill is the biggest item of expense the American people face. Some of our taxes we pay directly, in similar levies. Others we pay indirectly, as in the case of excise or so-called 'luxury' taxes. Others still are hidden in the cost of every service and article we buy. All told, taxes now consume close to a third of the national income."

"Taxation on this level destroys incentive. It dries up 'risk capital' why should a man take a chance on a business venture when he must pay the whole cost if he loses, but will gain little or not profit if he succeeds?"

"There is but one solution: rigorous economy in non-essential government spending all the way from the village to Washington. At best taxation must be heavy."

And from the Moravia Republican Register, Moravia, N. Y., we have this editorial entitled "The Edi-

torial We," which should give many readers a better understanding of their local editor's problems in writing editorials:

"At long last a long-time reader took occasion to complain about the editorial plural I have meticulously used in this column. She says what the 'we' sounds stilted and impersonal."

"Of course the editorial 'we' is a tradition. It implies most inaccurately that the opinion is that of a group of people, and not of one writer. That is only true of great metropolitan papers which have an editorial board which decides on each editorial article before one member is delegated to prepare it and after which it is possibly reviewed by the board before it appears in print."

"Sounds complicated. Sounds like ghost writing."

"The columnists have broken from this tradition and personalized their columns. Maybe Will Rogers and O. O. McIntyre first did this effectively. The personal extreme has been reached by such columnists as Earl Wilson and Robert Ruark. 'Well, probably there is a happy medium.'"

"I shall try to achieve that in the future, and to discard the editorial plural of 'we, us and company.'"

"I won't go to the other extreme, because I don't have Wilson's opportunity to associate with New York's night club society, nor the pure flights of imagination of which Ruark is capable."

Coffee-Hours Around The Clock

Courtesy of Nescafé

No beverage compares with good coffee in popularity in this country of ours. "Let's have a cup of coffee" rings out from coast to coast at any hour of the day or night. Making good coffee every time, not only is a mark of hospitality, but establishes a glamorous reputation for any homemaker with friends dropping in for a game of cards or to chat.

Instant coffee has really come into its own and is being used more and more in American homes as the family coffee for all occasions. Fresh and full-bodied coffee now can be on tap. No coffee grounds, no coffee-makers to wash and store and no waste!

For each cup needed at the coffee hour, just place one rounded teaspoon of instant coffee (more or less rounded according to desired strength) in the bottom of your coffee-maker and add an equal number of cups of boiling water. Stir and serve. There will be shouts for seconds. Quick as a wink... you can serve flavorful coffee... piping hot and fresh... with no fuss or bother. You, too, can enjoy these coffee hours as a relaxed hostess.

You will want to serve cookies with the coffee sometimes and what is better to serve with coffee than home baked cookies. Here is a new kitchen tested recipe for an old favorite. The cookies have a true coffee flavor when instant coffee is used as a flavor ingredient.

Coffee Rum Cookies

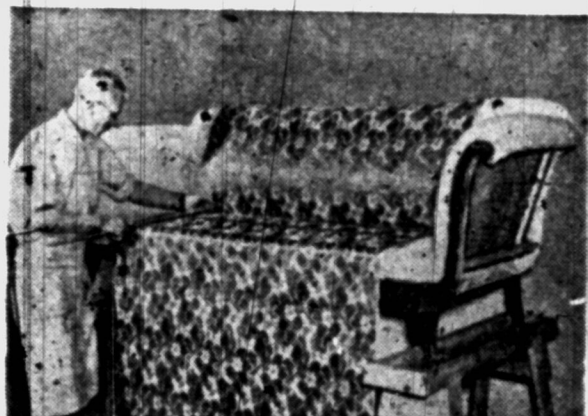

2 cups sifted flour
2 tablespoons Nescafé
1/2 teaspoon baking powder
1/2 teaspoon baking soda
1/2 teaspoon salt
1 cup shortening
1/2 cup butter or margarine
1/2 cup brown sugar
1/2 cup granulated sugar
1 egg, well beaten
1 teaspoon imitation rum extract

Mix and sift flour, instant coffee, baking powder, baking soda and salt. Cream shortening and butter or margarine; add sugars gradually, while creaming; beat until light; add egg and rum extract. Add sifted dry ingredients; blend thoroughly. Wrap in waxed paper or aluminum foil. Chill several hours. Roll out a small amount of dough at a time about 1/4 inch thick, on lightly floured board. Cut with a 2" cookie cutter. Decorate with nutmeats, if desired. Bake on ungreased cookie sheet in hot oven, 400° F., 8-10 minutes. Yield: about 3 dozen cookies.

You can make refrigerator cookies with the same recipe. Form the dough into a roll, wrap in wax paper or aluminum foil and chill overnight. Then slice thin and bake, as wanted.

Garden Club Shares Christmas Cheer With Shut-Ins and Veterans Hospital

December was a very busy month for the Arlington Garden Club.

On Dec. 10, at the library the annual Christmas party for the members and their guests was held. Mrs. M. J. Abizaid and her committee served refreshments, after which Mrs. George Ham presided at a short business meeting.

Mrs. F. J. Davidson, program chairman, introduced Carol Lee Downey, who told several Christmas stories. Mrs. Roy Crosby led the members in singing Christmas carols. Mrs. S. P. Melville was the accompanist.

Mrs. James Wood and Mrs. Humbert Beckett distributed the Christmas gifts. The hall was beautifully decorated with scenes depicting Christmas in other lands.

On Dec. 17, one hundred Christmas baskets were packed

and distributed to shut-ins in Arlington and nearby rest homes. Mrs. N. H. Bornstein was chairman and was assisted by Mrs. C. A. Gardner, Mrs. Harry Preston, Mrs. Charles Wright, Mrs. Charles Armour, Mrs. Roy Crosby, Mrs. George Ham, Mrs. F. J. Davidson and Mrs. Raymond Cronin. Several of the members donated Christmas cookies and helped to pack the baskets.

On Dec. 18, Mrs. Charles Wright, assisted by Mrs. Edmund Greiner, Mrs. Harry Preston, Mrs. O. W. Swensen and Mrs. John Cox, visited the Veterans Hospital at Bedford, and decorated the wreaths and hung them in the various rooms.

Once a month throughout the year a visit is made to the hospital and flower arrangements are made for the women's mental wards and recreation room.

Symmes Hospital On Five Day Forty Hour Week

All departments of Symmes Hospital has begun a 5-day, 40-hour work week, effective Jan. 4. Ernest W. Davis, president of the board of trustees, announced last week.

A number of circumstances brought about the change in the hospital work week which has been 5½ days for the past years, Davis stated.

Foremost was a reward to the existing hospital personnel for their interest and assistance through many shortages of help in the past, combined with the hope that the shorter work week would attract additional personnel to the hospital, officials said. "The present hospital employee group have been most cooperative in volunteering to do additional overtime work until such time as the program is well established. This in itself exemplifies the interest of the present hospital family to render the very best possible service to hospitalized patients," Mr. Davis said.

All salaries on the new schedule were adjusted so that no loss of income was sustained by any employee, it was explained.

Ensign Donald G. Hardy, son of Mr. and Mrs. George Hardy of 92 Rawson rd., is now stationed aboard a mine sweeper, the USS Shoveler at Long Beach, Calif.

He received his commission in June after graduating from Tufts College. He had ten weeks of Mine Warfare School at Yorktown, Va., before being home for a short time.

He left Arlington by car in time to report for duty Dec. 31. En route across the country he saw Grand Canyon, the Painted Desert, Petrified Forest, and had a short trip into Mexico at Mexicali.

Vocational Students Visit Assembly Plant

Members of the automobile mechanics course of the Arlington Vocational High School had an opportunity to see first hand how cars are made when they visited the Somerville assembly plant of the Ford Motor Company. There were 45 students in the group.

Conducted on a guided tour of the plant, the boys had the experience of watching a bare chassis transformed into a 1953 Ford, and then enjoyed lunch in the plant cafeteria. Of special interest to the boys was the close inspection of the parts which they themselves will be using in their own work in automobile repairing. They were accompanied on the trip by their three instructors, Edmund Lewis, Francis Kirk and Malcolm Allen.

(Correspondence)

I receive the Advocate regularly and thoroughly enjoy reading about the happenings of many acquaintances I made while on a visit to Boston, Arlington, Cambridge and vicinity. I was impressed by the notice of the Unitarian Church, welcoming all newcomers and visitors to their Christmas services. I had the pleasure of attending services in the Heights Methodist Church while spending a Sunday in Arlington and was most cordially welcomed.

I also noticed the price of hard coal going up \$2.65 per ton. This interested me somewhat as I live in the heart of the hard coal fields and where Old Company Lehigh, the oldest coal mining company in the United States operates and where coal was first discovered in 1791. I was greatly impressed by the cultural dignity and warm hospitality of the people of the New England States while I was touring that part of the country. Wishing you all a very happy and prosperous New Year.

Yours truly,

A magical hockey stick purchased at Zwicker's Sport Shop on Mill st. brought fame to Ralph DeLeo, Boston Technical high's captain, when he scored 11 goals and one assist last Saturday. The 10 goals were in succession.

"[The stick] -- bent like a whip, felt like a magic wand -- I never knew such a feeling --", he is reported to have said by Fred Foye, Traveler sports writer.

It seems Friday afternoon, during the storm. DeLeo and his coach, Vic Campbell, with other members of the Tech team, journeyed to Arlington to have their skates sharpened. The group also tried over some hockey sticks. Coach Campbell liked them so well, he ordered two dozen for future delivery.

As the players were leaving, Campbell said to DeLeo, "Let's start you off right tomorrow -- take that stick you like."

Besides claiming that the stick was a "magical wand", DeLeo said, "It seemed to have a seeing eye for both puck and goal."

It is said that the Tech speedster's performance shattered all known hockey records -- school, college or professional.
